The Adjutant General
State of Maine,
Augusta, Maine.

Dear General Hanson:-

There is a young man in this town by name Richard F. ~~Wewe~~ Stowe, who the informant tells me was born in Germany and who has made the statement within his hearing and one to him that "If it ever came to a show down he (Stowe) would fight for Germany and not the United States". This information was given me by a reliable boy with whom Stowe went to school. This fellow it seems to me talks too much and too openly to mean much altho some notice of it may be taken by others who are easily led. I shall be glad to tell anyone who comes out the source of my information at any time.

I am inclosing five registration papers for aliens.

W.H. Stevens,
Chairman, Board
of Selectmen.
